LAND FOR THE SOLDIERS

The plan of the Dominion Government for the settlement of sobliers is laid includes the purchase of land by soblers, with the Government's market assistance and the purchase of land by soblers, with the Government's market assistance and the for the purpose.

The operation of this plan availat the passing of the necessary legislates by Fatilizance. In the meanines, rapps are being taken to accept the late of the property of th An advertisement is being inserted in local papers in each distric

g for funders to sell to the Soldier Settlement Board suitable land.

The objects of the Government is not only to settle soldiers but to in use agricultural production by bringing under cultivation land not not

girculatural production by branding under cultivation tapa on now conducing or inadequately farmed. The conductivation is produced by the Soldier Settlement Board for The cland which will be approved by the Soldier Settlement Board for the production of his did not high agricultural quality and reasonable valled and of such a character that the settler will have reasonable chance, from the products of the farm, to earn subsistence for himself and family and the products of the farm, to earn subsistence for himself and family and the products of the farm, to earn subsistence for himself and family and the products of the farm, to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the products of the farm to earn subsistence for himself and family and the farm to earn subsistence for himself and family and the farm to earn subsistence for himself and family and the farm to earn subsistence for himself and family and the farm to earn subsistence for himself and family and the farm to earn subsistence for himself and the subsistence for himself and the farm to earn subsistence for the farm to earn subsistence for himself and family the farm to earn subsistence for the farm to earn subsistence for himself and the subsistence for the farm of the farm to earn subsistence for the subsistence for the farm to earn subsistence for the farm of the farm to earn subsisten the loan which is extended over a long term of easy payments.

While the demand for such locations at the start will be very moder, and no large turnoyer of lands is expected, advertisement has been de widespread as it is desired to have on hand in the office of the Sol de widespread as it is desired-to have on hand in the office of the Sol Fettlement Board in Toronto a small approved list of suitable loca as in each county or district of Ontario, which could be placed at the The Board desires to pay very strict attention in each case to the re

on between the capital investment and the estimated productivity of farm, in order that the settler should not be over hurdened by undue Very great care is therefore to be exercised in the soldiers of farms of appropriate cost and productiveness. The plans for the ascertainment of shitable land in Onli

vised by the Board with, it is hoped, the active participation of dis trict representatives of the Provincial Agricultural Department, also with the patriotic co-operation of county representatives and representative farmers qualified to advise the Board and the returned soldier as to the merits of each agricultural proposition which is tendered to the Board.

The purchase price will be fixed by the Board in each case only after ed and valued by the Board.

Red Cross nurse, member of a prominent family in New York, has a teffer to a friend in that city in which she says:

"The Boche propaganda has received a new impulse since the armise, and I feel we have fol won a decisive victory until we have really ined control of that vicious monster. How do people take it at home?

paided coulted of that vicious monster. How do people take it as home? by sear than 30 you can a gainst reteining vigilance and taking down any of the harriers raised between them and the Books at home. That in many sways, indiciously, revival of German protagonals has been attempted, its beyond down. Delay of the accounting with German protagonal process, by the peace conference, has gone for toward giving opportunity. The exclusive prominence given to more or less idealistics and impractical propositions has obscured in the middle of some they of practical propositions has obscured in the middle of some they of great importance that there must be such dealing with the defeated enemy that the consciousness of defeats will be room feed and that defeat will be permanent as far as revival of the power and their later are its indication. It is also that the search of the search of the production of part of the findings of the commission that was appointed to inquire into and determine the measurable harm that the German deli in Bellem.

— The commissioner's work, is not yet completed, but these facts have been established.

Reduced British Army.

Mr. Haldane look charge of the War Office, at the end of 3005. Three years later, at the end of 1008, a book was published by Mr. Assold Forster criticising Mr. Haldane's administration. Mr. Haldane was boasting by that time that he had added 90,000 men to the army. Mr. to make a Canadian gasp and stare! How was it done?

Ins. Brone bit of the performance. This is how it was put over the British public. On the 8th of March, 1906, Mr. Haldane rose in the House of Commons to denyer "rumor" to the effect that he had pleaded to abolish len basiralisme. or, adding "If I had decided to do anything of that kind it

is a sample of his administration. Take this again. On July 30, 1906, he too day came how many were rendy? 80,000 or less; just one-half the prom-

Mr. Forster predicts the thing away back in 1908. "That we ought
to be able to provide an Expeditionary Force of 160,000 is obvious...
if we are unable to do so our inability is the direct outcome of the destructive notice of the back to the control of the destruc-

I we are unitate to also do unfamily selven unter convenient in the estrate time policy of the last three years.

Do you think that Mr, Lloyd George's Contempt.

Do you think that Mr, Lloyd George was wrong when he poured contempt on the work of Mr. Haldane as Minister of War during those anxious years? We have answered one question, What the Asspatish Colhiert did?

Cabinet dud'd the Cabinet know? One is tempted to think that its members must have been living in the grossest durkness, in absparal ignorance. But members of the Cabinet again correct that impression. Mr. Churchill blurted out publicly that they know all about the German preparations and wife ein a fever of afarm. Mr. Haldane, not to be outdoor posts that he knew where the powder magazine was. Of con-formation was full and exact.

With this knewledge in their possession what did these Minister With this knewledge in their possession what did these. Minister 831 to the people whose lives and fortunes were in their keeping? The answer is written in a million newspaper's and books and magazines. It spites of precise knowledge, and while frankly stating that no other crim against a country could equal that of neglecting national defence, the employed all their eloquence, which was superabundant, and all their of ficial authority to persunde the nation that there was no danger from Ger men aggression.

Lard Roberts' Warnings.

ne Canadians have a way of putting on blinkers when they look at the management of British affairs before the war. "Of course p that Germany meant any harm. "Viewing the seene from a dist 3000-3000 miles they may easily think so: even at the time it see "Nobody really belie far away. So far and yet so near!, When the thunderbolt was launched it was necessary to stimulate the young men to volunteer by pictures o Junkerdom, militarism, Kaiserism. All the pre-war doings in Britain faded from memory; and there are pletty of people who are eager to fos-ter the impression that the war was a bolt from the blue; that it was all

How absolutely false that impression is will be revealed in a few If you want more, go back to the newspapers of those years. Chocolate the Ready Luncheon

WHEN business prohibits your leaving the office at lunch time, yet you are hungry and tired are checolate for chocolate is a sustaining food.

All through the war the value of chocolate has been demonstrated.

The Allied soldiers found that when fatigued, eating chocolate renewed their energy, and thousands will testify how bars of chocolate used as emergency rations supplied them with strength to "carry on" in many a tight pinch.

Chocolate has proven its vitality-restoring quali to every Canadian soldier. Profit by this war less Apply it to civil life.

Chocolate is a food product which the human system craves and demands. It fills a real need.

Keep agew bars of chocolate in your desk drawer. Eat them when you feel fatigued—they will help relieve the strain of your work.

A Fine Car—Low Priced

WE could build a Gray-Bort car to sell at a lower price. But we don't believe you want such a car a car whose only merit is chapness.

We believe you would rather pay a fair price for a good light car. And in buying the Gray-Dort you get the finest light car that engineering skill and high-priced materials can build.

More than that—you get this fine car at a really low price. Effi-ciency in the factory and big preduction make it possible.

tiency in the factory and hig prediction make it possible. We have built the Gray-Dort for the man who wants a car of sensible price; a car ownered in upbeau, but a car of size performance, from from the maintenable and commodious, equipped for care-type driving; and unquestionably handcome.

The terring car is \$1,245; the Gray-Bort Special—the cor with added refinement and correspondent, is \$135 extra; there are also the comps and the order. All GRAY-DORT MOTORS LIMITED - Chatham, Out.

amaze the world.

Of these responsibilities the Mutual Life of Canada has borne its full share. The claims paid during the war years amount to \$4,277,600.00

of which fully one-half were due to the war and the pestilence that came in its train. No one can estimate the blessing this money has brought to the widows and the orphans of decreased solders and civilizant? Homes of decreased solders and civilizant? Homes and children from distattr.

To-day our people are just beginning to realize what life immunec can do for them, and in many widoost soldings.

We have an opent in your district

gest issue that ever confronted a nation be was right? Will anyone sug-gest that be ought to bury the past in oblivion when he possesses a re-cord to be proud of? Does a man bury his D.S.O. in the back yard? gest that se ought to may't see fast in solarows ariser the personner. Are to see that the personner of the

Vou observe the claim made by the Australian Permier. Severs years before the typhon same the Birlish like he seen foot onlise to ware the Birlish people of their perilosa position. He was not one of the feet the Birlish people of their perilosa position. He was not one of the feet Conservative keeds, been also to all the more in power, what would have been the result? Permier Hughes claims that "peare could have been enthrough few ere in our country." Many people hast to hear that contention. There are lots of people who wear that war was invertibled Well, you will discove that the majority of those who now say host are was inevitable persisted up to August, 1914, in proving that war was un-thinkable. From unthinkable to inevitable is a pretty jump. What car you make of such a contradiction? Just this: "War was preventable even up to 1913, when Turkey's defeat robbed Germany of a million hayonets. But it was preventable on Lord Robert's terms, you will say nd these were stiff, were they not?

Moory Saved, Lives Lost, aid Lord Roberts' opponents at the time. They actually protest ed that his scheme would cost nine million pounds per an lion pounds per an a day!

An appalling thought, isn't it? Little wooder that all the pacifists from Asquith to Norman Angell loathe Premier Hughes and would gag or garotte him if they could? (To be continued),

"Shampoo, Sir?

There would be decidedly less baldness if more men knew the great comfort and simplicity of the Lux shampoo. Its rich lather thoroughly cleanses and invigorates the hair Washing the hair is oft-times something of a task but with Lux it is no trouble at all.

Lux will remove only the superfluous oilthe dust and grime—it is so pure it can injure nothing that pure water itself may touch.

Rinses out absolutely clean leaving the hair soft, silky and glossy with new vigor and health.

Overcoming The World

The Story of Malcom Kirk

After a moment of allegre, someone began to ask spections about the future prespects of the class. The red-fered, julip-looking young man was going to take a churrh in Northern Vermont. The man just behind him had received a rall as assistant pas-ter of an institutional church in Phil-adelphia. The deletats featured site deturn by the charge does will pain deturn the contract of the con-traction of th

respect in the smile, and on every mann' face was a look of real in-terest amounting to an excited cut-mity.

Malcolm Sirk smiled slightly as he looked up, the diffr not look an any member of the class in particular, that seemed to include them all in a friendly interest that was affection-tic and onestic.

mouth, but no one des seemed to earth his meaning. "My first cell ut, from the Look," "My first cell ut, from the Look," and the Look is t

Finally someone recurred to the class picture again. "I don't believe Kirk's in this picture at all. He sat ton far out. The photographer kept telling him to more in farther, list I believe he mored out again at the has minute.

Kirk and the companion who had laid his hand on his friend's arm re-mained a little while on the steps. "What will you do, Kirk?"

"I think I shall offer myself to th

Blindness of British Pacifists To the German War Menace

NTERESTING ADDRESS BEFORE BELLEVILLE WOMEN'S CANADIAN CLUB BY PROF. T. CALLANDER, OF QUEENS UNIVERSITY—REVIEW OF POLITICAL COMBITIONS IN EMGLAND BEFORE THE WAR — GOVERNMENT, PAST, PRESENT AND FUTURE—PITFALLS OF EXTREME RADICALISM.

Continued from yenterstay.

This then is the illustration which Lake to prove that democracy is another mile for Anna Repromibility. It is a stellahouse properties of modern registeratives; potenties. It is a stellahouse producing of modern registeratives; potenties. It is a stellahouse gand the guilt modern engineeratives; potenties. It is a stellahouse and the guilt on factoria that no same previous can mile the truth. Notaling can justified as the great that a stellar produces and the law for a while till the patitic force since other control of the stellar patition of the control of the stellar paties and the law for a while till the patitic force since other paties. That is without the paties of the stellar pati

and the gallant deed, oranno on which which could be within a continued to the country of the co

more democracy a most lopeful development?

Disco people speak jud avice about democracy as if it whe a new Angled affair, the discovery of the registrich cuture, and somosting-burtfel in the past. Utility is not format judicial to the past in the past. Why, even (formany in the dispersent) and interestin extensive and of government in the past of the past in the asserting very note medium to need to the mount years. The amenent As-syrian is amazingly like the Hun in many respects. What is the sense of imagining that we can break with the past. Care for the families of sol-diers who died at the front is stritten up as a morely. Dush people know that ancient Athers provided for the children of soldiers, killiches service? Fed them, closared them and carred for them till they grew up? Manrier Marterlinck finds the best and most up-to-date account of mightle Europe Marterlinck finds the best and most up-to-date account of mightle Europe in the pages of Thucydie

Democracy's Dangers,

What is the most simple account of the constantly recurring progress of societies from monarchy through aristocracy to democracy? In the eginning a community draws together in order to abolish the weakness beginning a community draws inperhets in order to stillable the scalescent of delongations described. Cheer cooperation is purchased by rendering authority on a chief stars long. Once the saids state is organized that authority is distributed from ear and more widely until every clitten searce, his infinitesimal third of control. The process of distributing that an area of the state of distribution is complete the political ero of reform comes to a condition of the state of the sta and earning, in following up the arts and professions—that conception of freedom is widely translated into fact. When every hindrance to individual exertion is removed, when every man is at liberty, while keep ing within the four corners of the law, to do his best and re of his labor a new situation arises. It is found everywhere generation that individuals and families differ enormously in me to smitter, user distinguishment of the labor a set situation strice. It is construct and repp the first plants of the labor and the labor

lastes, surveying the surveyin

Women Should Take

special care of keep free from besideste, assu-sche, countrijonio, weaknes and depressione. For these recurring allments and other condi-tions peculiar to women, Beecham's Fills are a teated and effectual remedy. They act gently-and promptly on the stometh, Irver and bowesh, and exert a bosic, are agghesing effect on the bodily functions. These famous pills are purely regently, contain no habit-forming day, gad, preduce no disappreads also effects. Women's

all the Newest Styles in Footwear

ONE of the distinct advantages of having a great organization like the Dominion Rubber System specialize on rubbers is—that they are able and willing to provide styles and shapes for every shoe for men, women and children. The ahoe stores know that when their new spring styles in footwear are ready, the Dominion Rubber System has anticipated their needs and provided rubbers to perfectly fit every shoe.

This means a lot to you, as well as to every dealer. It means that you can enjoy the protection which rubbers give, both to your health and to your shoes.

It means the ease and comfort which properly fitted rubbers give to the feet, it means true economy, because both shoes and rubbers wear better and last longer when the fit is trim and snug.

It is easy to get these sturdy, well-made, perfect-fitting, guaranteed rubbers.

Ask your dealer to show you any of these Dominion Rubber System Brands:—

"Jacques Cartier" "Granby"

"Merchants"
"Dominion"

They are guaranteed-and will give the best wear and service.

A Tribute to the Hardest Worked Merchants in Our Country

HAVE you ever considered the important part played by the grocer in our daily life?

From early morn and often keeps open for our convenience.

Whether we want a 5-cent bar of soap, a package of tea or a sack of potatoes he is there to serve us—and with a cheerful "thank you".

You trade with him almost every day. You look upon him as a friend. He treats your children kindly when you send them to the store.

When sickness, accident or unem-ployment occurs, it is the big-hearted grocer who supplies the home with the

necessities of life and often waits a long time for his money.

He has had many trials during the past four years. Government regulations have hampered his business. Goods have been difficult to procure. Help scarce. Profits small. He sells on a closer margin of profit than probably any other line of retail trade.

For nearly twenty-five years, the T. H. Betabrooks Company has been T. H. Betabrooks Company has been considered the property of the property

The Story of Malcom Kirk

"If high rotes of interest must still be pead on Considera Government borrowings, ALL the people should have the opportunity to care this interest".

—SIR THOMAS WHITE, Mapter of Finnes.

Why They Are Buying WAR-SAVINGS STAMPS

The housewife is economizing in comfortable ways and investing in Warsawings Stamps at \$4.02 each this month. In 1924, when these stamps are redeemed at \$5.00 each, every dollar will have greater purchasing power.

The business man; is cuthing of small and unnecessary expenditure and buying War-Savings Stamps. He knows his money is available any time he really needs it, with added interest. \$5 for \$4 in five years is an excellent return on money otherwise idle.

School children are buying Thrift Stamps at 25 cents each and are filling their Thrift Cards in order to acquire a War-Savings Stamp. They are helping their country and acquiring the habit of Thrift.

Men on the farms are buying W.S.S. because the Government uses the money to finance export orders for the food raised on Canadian farms. This makes their market sure.

Men, women and children of all ages and conditions of life, are investing in WS.S. because it is a convenient way to 'build a bond'. The security is a baofute and the interest is unusually high. Some day they will look back with great satisfaction to the day when they bought their firm War-Swings Stamps.

Have You Bought Your Stamp Today?

State Relivery a Russian Seri.

It is the fashion to faces these models on private and enterpoles. Some of as that the pace is too fast to for State rullways. Is if the that the experience of couraging 5. So fac as one can gather, State control

A great deal of preparation has been disposed at by the action. Britain to prepare controlled and private enterprise. The Sociality, or tremship arraided every give to force, the cost gainer to lake ever the big services, histoping, calcularly, etc. (four years were cough to demon-artic the interface) of pipe controlled the service a real private great start to be enablined. Just as with the publicly-owned deviators in the West. Declarace that failed when controlled the service are start to the service of the controlled the service and the service of the West. Declarace that failed when controlled the service of service of the service of the service of service service of service of service of service service of service one concerns by private firms. Private enterprise gives bett So it always has been and so it always will be, so far as we can

There is no much situate of property, in many quinters that we under it is furnison is an all medicanes. South there is no impaire about it is furnison is an all medicanes. South there is no impaire about it. Stips a male of a family man, and a family man, and a family man, and a family man is south to be a family man, and the stip is south one on complete, one gravitate property in the total the incidicated on which priced a link incomplete, he recreations, in social do citized not be single grind; all his locations, his social do long divided a way. To pair a hostisty, as Aristotte would say, the individual namy for from any is dividual to see a rever for well, never assume the layers of the 'a human being. Private property in the inconduction of all substitutions, and the single state of the

the multipleation table. When State Ownership Falls Durn.

Soppoor you effect the fruch-advertised revolution. Imagine egyneared listed, egy-frosts; all microsis, fasheries, peters and shares,
every conceptable, form of wealth concentrated in the bands of the Stateevery conceptable, form of wealth concentrated in the bands of the StateMillions of State employers occup the towns and the country, and doing
their appointed finally task and receiving the daily or weekly pur from
the paymenter. Modely processes any private property. Accumulation
of surplus pays in furbiddent as a citation of the grand priviple of seculor surplus pays in furbiddent as a citation of the grand priviple of seculior. When then owns the wealth of the eventry? Challeshot the new ism. Who then owns the wealth of the country? Obviously the met who for the time being control the State. The entire accomulated wealth who for the time being control the State. Ine entire accumulates we of the nation is their private property and if one could rolly see suc 33546m in operation you would at once feel that you werp in the prese of a new despitsim, an oligarchy of a prore concentrated kind that wo world ever saw. That is the sort of State socialism that we observe centrated kind than the Russia today. So far as their authority extends Lenine and Trotsky with their associates OWN Russia; it is their private pleasance, their estate, their property, 50, long as there is scealth to own and human beings tor possess it.

possess it.

Vaporing and Captring of Agisture.

Accordingly in boding to the future we may, whole-heartedly and sincerely, defend private projecty as not merely the source from which not of legitimate sailadarious flows, we may defend it as rooted in the nature of things. Even the animals possess private property and asseyt their ownership against worder angresses. We need have no scrupbed subout branding the brazen advocates of communium with their ownership gains woulder agreement. their vaporings and caperings if it were not that we hear quite too n bout the willionaires.

Capitalists Maligned.

It is dineed into our term interesting that we are all exploited by the opinishes. They relt us that wealth is more and more gloing into the repitalists. They relt us that wealth is more and more gloing into the hands of the few. The very opposite is the case. Millionaires are written up and geosipied about to a diagnisting extent. We come to intigent that they are golding up larger and larger alises of the total riches of a country. It is all rubbish. There are more and more well-node every year'in all dequest countries. The number of smaller people with a compensor grown faster that the millionaires, faster in actuality and faster and the state of the countries. The number of smaller people with a compensor grown faster that the millionaires, faster in actuality and faster that the millionaires, faster in actuality and faster than the millionaires, and the contribution of the countries. The countries were considered in a second of the countries of the millionaires is visit in the countries. The countries is not all the countries of the countries of the countries. onaires are writ- paid.

to get even with the minority of the wealthy we lend a willine political spoilsmen. Politicians play on the jealousie mass to get bigger taxes out of the whole flock. Why modern democracy that, while wealth grows the total i ot only grow in gross bulk but take a larger apital and industry? Why do we tamely su a sympathetic hearing to a popular peaker who asks

A Spring Message To The Canadian Public

HE Signing of the Armistice relieved some of the most pressing demands for shoes. But it did not and it could not, increase the supply of leather. It released thousands of men from military duty, but only gradually will they find their way back into their old occupations. So, until an actual shortage of leather is turned into a surplus and the supply of labor becomes somewhere near normal, we cannot expect any marked change in conditions, and the price level must continue high.

Leather is not a product of manufacture, but of natural growth. It takes time to produce a skin, and no process of "speeding up" will hasten it. The demands of the war, and the destruction of war, so depleted the world's stock of leather that, as we told you last fall, it was a big problem to produce enough good quality shoes to go around. Now we must simply wait for a new supply of leather to grow.

Labor is another problem which will take time to solve. Many men, fresh from life spent largely out-of-doors, will not go back to factory work again. Many others bear honorable wounds which unfit them for it. Here again, we expect no immediate return to normal conditions. So in this, our Spring message to the Canadian public, we say:—

"Prudence in buying is still necessary. You can help to bring about more normal conditions if you will continue to exercise it. Buy for service and see that you get real value for your money.

"And now especially you should see that the manufacturer's trade-mark is stamped upon the shoes you buy. Unbranded shoes may be reduced in quality to make the price seem low-with the end of the war as a plausible excuse. But no manufacturer will jeopardize his reputation by stamping his trade-mark upon a product which he is ashamed to acknowledge. Remember this, and fook for the trade mark. It is the best assurance you can have of real value."

Get This Booklet

We have prepared a booklet "How to Buy Shoes" which we think will help you. It contains advice which you will find of value, whether you buy A.H.M. Shoes or not. We shall be glad to send you a copy with our compliments if you will address our head office at Montreal.

you go rattling back to anarchy, which is just a feverish and fitful di Socialism Unchristian

Socialized Technicals on Socialized Technicals in spirit Does its philanthropy square with the spirit of the gospets? There is the polytical form of the property of the property of the spirit of the gospets? There is the property of the spirit of the gospets. The spirit of the spir country that a rich man has ing gaining an entrance cinot be kingdom of Heaven. It is not true that it is easy for a poor man or for a man with a competence to find the narrow gate! The point of the saying is that the mercy of Gold is infinite, and also that excessive love of wealth is an revil, and a moral temptation. Therefore in the life of every in he used as an instrument in living a worthy life. The whole it Gospels is quietly charitable and tolerant: It is the very antithe Geopets is quietly charitable and tolerant: It is the very antithesis of the Socialistic Religion, as one glance at the Red Catechism O Socialism with its blasphemy and its savage harred of Christianity and the church will show. If the ordinary church woman thinks that Christianity an State Socialism, as formulated by its leading champions, are on a par

Look Political Scho

nal prejudices. Once the goal to which we are being burried is d it can be made really responsible governs a large jury for the purpose by lot—if a politician saw this jury to try him for his life, we should see a transformation in Cabinet ment. Short of that, every woman can do her bit in spreading t that every citizen, even a politician, is expected to do his duty. The we can all initie in checking public waste which forms a pretest for hea iter taxes. These have much to do with the higher cost of lixing and the hit everybody all round, except the political profiteers and thir Jayo.

The pretext for nationalizing the big services and industries is a thin one, easily seen through: the pretext that they are to be run for the good of all. They are in our generation sure to be badly run. Who says the Intercolonial was ever run as well as the C. P. R.? Why should the industrial life of a community be placed at the mercy of bureafterats? The answer always is, for the benefit of the many, not of the few! How infficiency and lack of spring, such as government control breeds, car raise the wealth, that is the productive capacity of a naticomprehension. Let us try to live up to the spirit of the democra-stitution which has been built up. There is plenty of scope for stat

Sporting News

who are grouped with Kingaton in the O. B. A., have played two games, winning in Belleville by a score of 49 to 29 and losing the game at Kingaton by a score of 49 to 29. This makes a tie a score of 49 to 29. This makes a tit on the round and home and home games are ordered to be played with points counting. The local team wilk likely play in Kingston Wednesday night, March 12 and play the return game here Saturday night, March 15th, The team winning this round will play off with a Toronto team.

Compulsory Service For British Army of Occupation the circ

BILL INTRODUCED IN BRITISH HOUSE OF COMMONS PRO-VIDING FOR COMPULSORY MILITARY SERVICE FOR ARMY OF OCCUPATION, COMPOSED OF 900,000 MEN-LABOR REPRESENTATIVES OPPOSED TO BILL AND OP-POSED TO OCCUPATION.

Special Depatid to The Intilligencer, Capadina Press, Limited, LONDON, March 7.—Capatin Feguri introduced abilit in the House of Commons yetterday which proposes decognishory service for the British earny of accepation. This army, according to the bill, would be composed or 500,000 may and the enlistment priced would expire on 407130, 1920. Attractor, Shaw, inherite, moved the rejection of the bill because the Labor party is apposed to a continuance of occupation. Colono Winston Spencer Churchild, defending the bill, argued that the Government in priceding for a new to improve the control of the bill argued that the Government is present of the control of the bill argued that the Government is presented for the control of the bill argued that the Government is presented for the new of the bill argued that the Government is presented for the new of the bill argued that the Government is presented for the new of the bill argued that the Government is presented for the new of the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented as a control of the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the Government is presented for the bill argued that the government is presented for the bill argued that the government is iding for an army to insure peace was pursuing a path toward oluntary service. The bill passed its second reading 304 to 71.

the factories, and all seem bent upon locat one in office, shop and factory, enduring all the horrors of "fu com" life rather than enjoy the greater freedom and more heal oundings down on the farm.

surroundings down on the farm.

The answer and the remedy has long been sought but condition to b getting worse instead of better and the farm work become for lack of expert help.

A prominent citizen of Belleville who has given the matter carriaderation suggests community farming as a solution to the problem.

production suggests community farming at a solution to the problem that intensive farming as an improvement upon extensive farming where as stretches of good land are laying idle while only a small proportion the boldings are worked to their crapacity.

[Isolation is one of the prime reasons why young people who how intensibility and community. He find that the lides of the community are included in the community and the community are community. The find the lides of the community are community are community. The find the community are community are community are community. The community are community are community are community are community are community are community. The community are community are community are community are community. The community are community. The community are community.

sizibility and community life find farm life distastedu and the idea of preparatif farming is to provide social enjoymeng as well as other ad preparatif for the providence of the providence of the providence of the statement of the providence of the providence of the providence of the third that the providence of the providence of the providence of the statement of the providence of the providence of the providence of the mining the providence of the provide

riments in community farming.

Take for instance a plan which would utilize the waste plan

Take for instance a plan which would utilize the waste places near ye centre like Belleville with good tilluble soil apportioned to soldiers dit bier families, with a village centre for their homes, with all the adequest of community life and the elimination of judicited londiness; settle and the statestics of farm life would be very much solanced and consideration of farm life would be very much solanced and consideration of the statestics of farm life would be very much solanced and consideration of the statestics of farm life would be very much solanced and consideration of the statestics of the statestics of the statestic of the plant is explained of wide divelopment and it would picket. S. Saitable land could be secured for the purpose by the arbitrarijon of the wide wide discourage high speciative prices.

Oxyrease the community idea is fast taking hold, more especially in moretom with oversional training for disabled soldiers, and village centre will oversional training for disabled soldiers, and village centre will oversion training for disabled soldiers, and village centre will oversion the state of the state of the security will over a lichary of the blanch of the life in 61 of the gentre will over an 1 february of the state of the state of the security will over a lichary of the state of the state of the security.

In March or April the first of these centres, will open at Enhance, near Andover. A grant of \$50,000 has been made by the British co, near Andover. A grant of 850,000 has been made by the British & Cross Society for the building and equipment of the medical block. for Agencies contributing help are the Ministry of Pensions and the ord of Agriculture. A centre where one thousand men can be provided will involve an expenditure of \$500,000, asy's the London Weekly see, but existing buildings are to be found at Enham where one hun-

Overcoming The World

The Story of Malcom Kirk

CHAPTER IV

Good Rubbers Mean Foot Comfort, Shoe Economy and Health Protection

Why are they comfortable? Because in the Dominion Rubber System brands, you can get just the size and shape of rubbers to perfectly fit every pair of shoes. That is one advantage of having a great organization like the Dominion Rubber System to study your needs. With factories and service branches all over Canada; and with experts in constant touch with the leading shoe manufacturers, the Dominion Rubber System is able to make and supply your dealer with every style, of subbers required.

Is it necessary to speak of health protection? With the epidemic of "Flu" so vividly in mind, and the warning of physicians to keep the feet dry, surely no one will run the risk of going without rubbers on wet days!

When you choose jubbers, ask for one of these brands:

These trademarks guarantee quality; and behind these trademarks is the Dominion Rubber System, a power of protection to every pair of these guaranteed rubbers.

Good Government

Despite heavier expositions in Current Account, due to the zero-real acide of prieces, large increases in revenue are reported. The lin-crease from the sale of motor licenses passed \$250,000. The Outstrict Tempsrance Act brought in over \$200,000. There was an increase Public Institutions of nearly \$333,000, and the total Succession? Due-for the year resched \$3,157,000.

for the year reached \$3,135,066, ...

The necks of the Province were not starred to make a gr.-j show law. On Education the Government spent more than last year h \$250,000. The grant for Articulum increased by \$156,000. On Publication there was an increased appropriation of \$20,000.

The Capital coultsy for the year was \$12,442,200.74, bringing the gross drive to \$75,000. The Capital coultsy for the year was \$12,442,200.74.

common of \$4,000,000.

The most artisting feature of the slatement has to do with the Provincial War Tax. For the first two years that it was in force, the revenue under that tax was larger by \$1,042,000 than the sum expected for war purposes. This year the collections were less than the expectation by \$1,001,000. Thus the tax has carried all the war outless of the Provinces.

Blindness of British Pacifists

INTERESTING ADDRESS BEFORE BELLEVILLE WOMEN ERESTING ADDRESS BEFORE BELLEVILLE WARDS CANADIAN CLUB BY PROF, T. CALLANDER, OF QUEEN'S CANADIAN CLUB BY PROF, T. CALLANDER, OF CONTROL ON UNIVERSITY—REVIEW OF FOLITICAL CONDITIONS IN ENGLAND BEFORE THE WAR — GOVERNMENT, PARSENT PRESENT AND FUTURE—PITFALLS OF EXTREME RAD-

Haw irreposable government bindered Britain into the great war superposed was taske visibly by Pred. T. Callander, of Queen's University, before the Women's University, before the Women's University, before the Women's University and the property of the great war to the German peril, supported as they were by a pacifist public and to the German peril, supported as they were by a pacifist public and stress of the property of the deposity power governbeart with Italiane in the War office, which are the property of the prop

operation of railroads in an interesting manner.

Prof. Callander's address is so timely, true and illuminating as to the es which permitted Germany to come so near victory, and his views tate ownership and control of railways, Socialism, etc., are so frankwen as to compel earnest thought and consideration, whether one ses with him or no, that the address is well worthy of publication in

full, and is as follows:

Our Country and Our Times.

Never before since recorded history began, some 5,000 years ago,
never before has the human race seen such times as ours. A sanguinary and colossal war, grim famine, the horrors of diesea and latterly a
pastilency, a veritable Black Death, have sourged the nations fee five
pastilency, a veritable Black Death, have sourged the nations fee five
on. Athenian saddly remarked. awful years. Over twenty centuries ago an Athenian sadly remarked, after a frightful calamity had overtaken his beloved city, that the year ad lost its Spring. So may we with greater reason confess that our age twentieth century, has lost its Spring. Yes! and for how many, estably of the younger generation, will there be neither smiling summer mellow autumn nor frosty winter.

Holy City of Pilgrimage

The Terror that so many sport-bands, that too many ridiculed, has indeed done its fell work. The British Empire alone, to say nothing of our Allies, moorns a million dead. Who shall estimate the anguish involved in such a holocaust of our noblest and best? To countless multitudes every mile of that blood-soaked battle-front is sacred ground. That will be the Holy City of pilgrimage in our time. And for those who That win oe noe rooy Cuty on purgranage in our time. And for those who cannot make the pigiranage theoremains the privilege and the duty of looping fresh and green the memory of our heroes. For, after all, the time memorial to those who have yielded up everything, feli tosif, for us, consists not merely in the material monuments erected in their honor. As the illustrious statemine of automate Athens reminds us: "There is in every land a memorial tomb for those who shed their blood in a glorious se, the shrine in the hearts of all who cherish the memory of their

Startling and spectacular incidents have been crowded into these fifty-odd mouths. Three of the impliest empires laive crashed to ruin. The proedest dynasties, Hapsburgs, Hohenzalteris, Romanuffs have bit deats. How much of revent history, not of Russia alone, is summed to the dast. How much of revent history, not of Russia alone, is summed. the dast. How much of recret history, not of Russia alone, is summer up in the ghastly roboc ensected in the Sasement of the Villa in Estateria burg last July! The Carr and his family on their kneep pilitesty had and stabledo, the Princess Ausstasia, through her butther bungling, clubbed to death. That chirk chamber a shambles, just as Russia at large is a shambles. Pow Nicholas, an honorable glby but weak, foo weak to ride that whirtwise and direct that storm. Yet, far happier for all his misery than the arther driminal who sayits his fate in Ausseration. sery than the arch criminal who awaits his fate in Au

Morass of Debt.

aterial loss is gigantic of course. Britain, for example, co have wiped out poverty for ever by a wise use of a fraction of the wealth devoted to the Allied cause. Now every Allied country, except the United neyoten to the Allued cause. Now every Allied country, except the United States, is floundering in a monsas of delat. Wherever we turn we are flored with heavy expenditure, crushing transition, labor unrest and stickes, social strife between Cassos, employers and employed at daggers drawn, mistress and mixed little better; in Canada religious and recital and the country of the of Quetter.

In the whole horizon the bright spot by com in the woose notion the bright spot by common constrail is the vin-dication of democracy. One of the innumerable host who chant the tri-umph of democracy sams up our gain, from all our, woes, in a physic-"We are entering on a vastly more democratic gae". (Furthermore, he voices the opinion of half a world in these next words: "It is, not the League of Nations which - . . can guarantee us peace, but democracy, cy, democracy.")

democracy, 'democracy,'')

What was re-outloried with then after passing through the furnace of afficients is the drift towards more democracy. We gan assume instance, that Canadas will end all fractable contraversy by granting adult surfaces. Such a change is conparatively small and even if a device his audience of the contract of Bedged and complete, what then?

Do The People Govern?

Before we approach the thorny problem of more democracy let us nocked the existing arrangements. Do we all comprehend the sys-under which we live? It seems clear as daylight. Have we not go occasio government, with a few little anomalies, and it met that just tem under which we live? It seems clear as daylight. Have we not got democratic government, with a few little anomalies, and if so that just self-government, government of the people, by the people, for the people? What could be more natural and logical? Notwithstanding these commonglates, we don't pretend, do we, that the people actually govern? What we mean is that the people are gov-

of British Pacifists

To the German War Menace

ADDRESS BEFORE BELLEVILLE WOMEN'S

For that obleworld democracy codured no sham in this visible and the position of the control of the con for that old-world democracy endured no sham in this vital matter, indirective depositing, of which we have so such and see no littlewax entains in those days. No minister, no magitative could eague it. All is east were subjected to actifup before a jury of the people and was to so effice holder who was found gully! Eines, heavy fines, calls and the office and the second seed of the second second second property of second-position device worlder. Real responsible, government is the ent crying need of our day and the most difficant to nation. We have a finaling illustration of this fast defect in modern repre-netatives recommend.

We have a flaming inharaction of this fatal defect in modern representative government stancing us in the face. Learn going to ask spat to examine in some detail the conduct of the Coldent which will fee all times and as the per-ceniment instance of irrespossible demonstrating provenment. I mean the group of men who ruded British during the nine years before the wars. So long as the war ranged, it was an avaledural theme to handle. It did not do to spack frankly before Canodians, for fear they going the reversible and discouraged, "That is why to smart," Calonians are particularly to the general election in Britain. Why is the 'great Liberal particularly the general election in Britain. Why is the 'great Liberal particularly the general election in Britain. Why is the 'great Liberal particularly the general election in Britain. Why is the 'great Liberal particularly the general election of the standard of the sta cause the British public has some inding of what I wast to demonstrate been, namely that the pressure Cabinet or Westimster played a very sorry part and brought great calamities upon the nation that obeyed it com-mands. If it rempies, on a close inseption of their record that on the grand, vial, national issue of defence, a, British Cabinet betraped in text and nevertheless paid on proper penalty. I say that you must there recognize irresponsibility in its complete form, open, full-blown, triumph-ant. Let us we for nursleve.

Betrayed Their Trust

In order to judge fairly whether the Asquith Cabinet failed in its luty in the fateful years from 1906-1914 we are bound to ask: firstly duty in the fateful years from 1900-1914 we are bound to ask a firstly What did British ministers know about the German menace? Secondly To what extent did they arouse the nation to a sense of the danger looming abead? And thirdly, What preparations did they make to repel at

self. They provide us with electrifying answers to all three queries First, What did they do? Mr. Haldane was lavishly a 'vertised as a mi aculous War Minister. One of his colleagues, Mr. Lloyd George no less dissipates the halo with one puff. In August, 1914, at the commence ment of the war, said Mr. Lloyd George in the House of Commons, wa ment of the war, said Mr. Lloyd George in the House of Commons, we had on army, properly speaking but only a police force to protect the Empire. Thus on land our forces were reduced, if we are to credit Mr. George, to a shadow. Against the flatterers of Mr. Haldaine we have to measure the sweeping verdict of his (colleague. F. 1999pers he would not have thrown Mr. Haldaine to the wolves without the reason. So we turn the contract of the colleague of the colleague of the colleague. up the literature dealing with the British army reforms so loudly trumpe ed abroad ten years back.

Robotic British Array,
Mr. Haldane 1006 charge of the War Office at the end of 1905,
Three years later, at the end of 1908, a look was published by Mr. Armold
Fester criticaling Mr. Haldanes a soministration. Mr. Haldane was
beasting tight that time that he had solded 90,000 men to the array. Mr.
Festingforties that he had pointby releaded our forces by 1,000 men;
18/62/1904 hr., 18/6,000 milital and 100,000 vidualtees. That is exough
the acc Canading open and state! Here was it done? In three years,

This is one bit of the performance. This is how it was put over the British public. On the 8th of March, 1906, Mr. Haldane, rose in the House of Commons to deny a "rumor" to the effectablest be had decided Britain policie. On the 88 to March, 1996, Mr. Haldame rose in the House of Commons to deep a "rumor" in the effectivals the hald decided to aloids two battalons. "I tried to describe that rumore," said the hon-gentleman "currenty as a "islate equipmen," which is a policy and classic way of calling it a "num's next." Thus Mr. Haldame efecually edited as the said of the way of calling it a "num's next." Thus Mr. Haldame efecually edited way declared the said of the said of the said of the said of the said common the said of the said of the said of the said of the Ball turned ever on his left said exclusive and the said of the Within a few months. Mr. Haldame schroyed nice autointions. That is a sample of his administration. Take this again. On July 30, 1996, to took great credit in hisself, as his practice was for a wooderful or.

is a sample of his administration. Take this again. On July 30, 1900, to took preserved in binnedle, as his practice was, for a, monderful reform. He proclaimed that he would be able to seed an army oversame of the control of the c

Mr. Forster predicts the thing away back in 1908. "That we or to be able to provide an Expeditionary Force of 160,000 is obvious...

If we are unable to do so our inability is the direct outcome of the destru ve policy of the last three years."

Do you think that Mr. Lloyd George's Contempt.

Do you think that Mr. Lloyd George was wrong when he poured contempt on the work of Mr. Hakhade as Minister of War during those anxious years? We have answered one question, What the Asquith Calibriet did?

What did the Cabinet know? One is tempted to think that its m wat dut the Cabinet Know? One is tempted to think that its mem-bers must have been living in the grossest darkness, in absynnal igno-nore. But members of the Cabinet again correct that impression. Mr. Churchill blarred out publicly that they know all about the German pre-ourations and were in a fever of alarm. Mr. Haldaine, not to be outdoor, boasts that he know where the powder magazine was. Of course their information was full and exact.

With this

information was full and exact.
With this keeveledge in their possession what did these Ministers
\$49 to the people whose lives and fortune-fuver in their keeping? The
stawer is written in a million nesspopers and books and magazines. In
spike of precise knowledge, and while frankly stating that no other crime
register of their cond-equal that of neglecting national deforce, they
enosphore all their cond-equal that of neglecting national deforce, they
find authority to persuade the nation that there was no diagner from Grefixed authority to persuade the nation that there was no diagner from Gre-

Lord Roberts: Warnings.

Some Canadians have a way of putting on blinkers when they look the management of British affairs before the war. "Of course nobody eas," they observe, "what the danger was." "Nobody really believed is got led fine management of british allaris before the war. "Ut course notough just [seen," they observe, "what the danger was," "Nobody-really believed upder [that Germany-ment any harm." Viewing the scene from a distance of 3000-2000 miles they may easily finish or even at the tithe it seemed so that far away. So far and yet so near! When the thunderbolt was launched

Blindness of British Pacifists

To The German War Menace

The state of the s

Well, you will discove that the majority of those who now say that war was inceitable persisted up to August, 1944, in proving that whe was sentiable persisted up to August, 1944, in pretty journ thinkable. From muthishable was been also as the pretty journ pair of sach a contradiction? Well as pretty journ and the sach a contradiction? August a robbed formula, of a million beyonets. But it was prettrainble on load Robert Sigman, you will asy, and these were stiff, were they not?

Massay Sarva, Liria List,
So is ald Lord Eodert's oppodewith at the time. They actually protested that his sorberies found out not immultate pounds per anomula to a series of the sach and the sac

tay!
An appalling thought, isn't it? Little wooder that all the pacifists on Asquith to Norman Angell loathe Premier Hughes and would gag or rotte him if they could!

This then is the illustration which I take to prove that democracy other name for sham responsibility. It is a well-known peculiarity of odern representative government. Only in the example which we have modern representative government. Only in the example which we have been dead at the considered at the consequences of the crime are so staggering and the gail so flatgarm that no sane person can miss the truth. Negling can gallitate the crime and sprt the punsishenes in nothing. The gelfurly, the offenders, may study and the low for a while still the public forgets or or high contractive and the low for a while still the public forgets or or the real. That is shifted the public forget of the real and the still real to the still year. Premier Hughes, his mind tortured with the thought of Gallipol d the gallant dead, brands the whole Asquith crowd as criminals

a year, Frames regular and the whole Apopith crowd as criminals. One did the galanic deck brands the whole Apopith crowd as criminals. This brings us to the hig some so violely urqued at present. Granding that democracy as but alarming defects, is one the drift towards more democracy a most hopeful development? — Democracy Harry Whih Age.

Most people speak and wiving about democracy is if it were a ore-fungled affect the present and something untried in the past. Unified in the settled control, and something untried in the past. Unified in the past control of the transfer of the past control of the yrannies, confederations, lengues and barbaria urites. The human race has sampled every possible kind and every possible mixture. The sacals of these experiments is generally small compared human nature. Sueper menta but the principles do no saller any more than bushna nature. Sueper his war, has shown most conclusively that the entity attacked man his war, has shown most conclusively that the entity attacked and spring in anxiety of the same property. The insteam of spring is maxingly like the Hun in many respects, the its sease of maxing the same property and the has changed very little during these fire thousand years. The ancient has yight in annalingly like the fluin in many respects. What is the uses of imagining that we can break with the past. Cane for animies of sol-diers who died at the front is written up as a novely. During the proper that means, a sold the proper than the proper of the properties of perfect the properties. The properties of the properties of perfect the properties of the properties of the properties of Macterinick finds the heat and most up-ho-date account of middle Europe that most of Throughties. the pages of Thucydides.

small economistics of the man and the larger accumulations of the well-tode. Add it gives reed review that the choice of the improbase are the choice for rectifying the uneven difficulties of this world's goods. And at last we have to rection with the choice of the ch

Canadian Bourgeois

It is a great mistake to imagine that only the rich aire threatened.

If you note carefully the promonements of the popular leaders you must motive that the object of attack is the hourgraine. Note Contact is a very fair specimen of a boargrosise society; There are sufficiently fairlished in a very fair specimen of a boargrosise society; There are sufficiently fairlished in the care polarectars. But there is no privileged takes, experit families and trade unionists. The blancer of today is the millionist of forestorm. The content to the fairlished to the forestorm of the content of the proposed to the forest trade unionists. trade unionists. The labour of today is the militative of unionists. The social tates is friendly as a rike and there one to mode of them upon or tillify. One might think that schemes sinced at the class upon or tillify. One might think that schemes sinced at the part to the same careful setting in towards state usualism. There was no effective the contract and the same careful setting in towards state usualism. There was no effective the contract appeals and enabursey by the State. That is only the contractive of the same contractive that is not provided to the same contractive that the same contractive that

Wolves in Sheep's Clothing.

Web and State through unlingife taxation.

Web and State through unlingife taxation.

We hould not be blaffed or hamboushed by professing philambrophists. The philambrophist are askind on gictater. An agitater, an unline Democrat like Liebknecht, recently killed in Berlin, passed for a philambrophist are salkon unjeatered. As a significant with the case unpermote on the where for revolution. As soon as a massed coloused wealth by his black list, his like list was found to have a massed coloused wealth by his black list, his like list was found to have been been accepted with the profession of the black list. As the list was found to have been been accepted with morder unless they paid up. He and his whose class of floodhead are decardly workers in heavy's cloning; when they can agree the history of the black list was the size of the list of the size of the list of the l

own all wealth, will distribute enough to all; all will work a little, will live in plenty; will eighy lots of fun.

After watching the bleeding process to which modern democratics are askylered after observing the principal result, namely theoretical of a bloaded bureaurcay; after noting the dull and which is the lot of the bureaurcat; after the examples of New Zealth and Australia which are far more socialistic than Cannit and far less sec-central. Learnest hall the ownerge of all the Cannit and far less seccessful, I cannot hall the prospect of ultra-democracy with joy. The pic-tures of the Utopia painted by their devotees are dismal in the extreme. Take their own forecasts, and what invariation is these tures of the Utopia painted by their devotes any dismal in the extreme. Heaven. It is not true that it is easy for a poor man or for a man with the control of the control freedom of speech destroyed in Russia, but of come the freedom of the presaculture was not be inderrated. Even the moderate democrate in Germany as once exterminanted the free press of the country. Thus observed more to desposition as soon as it workeds to one guizantee, its encourage more to desposition as soon as it workeds to one guizantee, the expect for the country of the finite country of the country o

Socialism Unchristian.

WE were among the first to put up tea in sealed packages.

We were the first to use automatic electric weighing machines so as to insure accurate

We were the first to make known the qualities of now world-famous ASSAM tess.

And we are now the first to adopt a new packs the better protection of these fine quality teas. The lead package has served its purpose well-for generations, but it was easily broken or torn, allowing not only a loss of ten from the package but exposing the ten to the sir, doers and dust that it was so necessary to protect the ten against.

Our new package—the waxed board carton—is stronger, more secure and more completely air tight; altogether the best container for tea that has yet been devised.

TEA is good tea

How to Become a Bond Holder

A SIMPLE SUM FOR SHAVERS

A man shaves every other day at a cost of 20 cents per shave. If he buys a Gillette Safety Razor, how many War-Savings Stamps (which are "baby bonds") can he buy with the money he thus saves between March 1st and the end of the wear

And what will those stamps, or "bonds", be worth on Jan. 12, 1924.

METHOD-

At 20 cents a shave every other day, the cost per week would be... 20c. x 7+2 70c.

A man can shave every day in the week with one Gillette blade, which costs 8c. Add for soap, etc, 2c; total, 10c. Therefore, amount saved per week by shaving with a Gillette Safety Razor equals 60c.

From the first Monday in March to the last Monday in December is 43 weeks, during which the net saving by Gillette shaving is 60c. x 43 = \$25.80.

Deduct \$5.00, the price of the Gillette Safety Razor, and with the remainder the man buys 5 War-Savings Stamps, at four dollars and a few cents each.

On January 1st, 1924, these 5 W-S.S. will be worth \$25.00, representing one year's shaving saving, and the Gillette Safety Razor is paid for and still in daily use.

This shows how systematic saving along only one line mounts up. Naturally, this particular example will not apply to all who should be buying War-Savings. Stamps. Men who already use the Gillette Safety Razor, and women and children generally will find other expenses which can be cut down without material loss, or indeed, any loss of comfort.

The man who was paying 20 cents for a shave, should buy a Thrift Stamp every other day, at a cost of 25 cents, so that he would not be tempted to spend needlessly the money saved.

SAVE-and buy War-Savings Stamps.

HOW CANADIAN WOMEN discovered their own truly Canadian Sugar

THE DAILY INTELLIGENCER, WEDNESDAY, MARCH IS.

A light, fully cake—it depends partly upon the fet you use in it. Brown sagar makes a moist has powdered sugar a city cake, framatated sugar-cake of the most texture, pomision Create analysis of the cake of the position of the cake of the position of the cake of the position of the cake itself, but for the icing ton, our not only for the cake itself, but for the icing ton.

For the part II years Canada has been producing augar refined from beets. Thousand of Canadian women, have used this sugar, but many of them without resilizing it. They asked their grocers for "sugar," designating no brand, and they took whatever was given to them.

Then came the war—and the submerrises much so much raw cane sugar on its way from the submerrise of the s

acequate supplies.

Still the Canadian housewife had sugar for her table and in her kighten—sugar of a superior quality. It seemed strange—and she inquested where the sugar was coming from. She quards where the sugar was coming from. She may be supplied to the sugar standard of the sugar standard sugar seements of the sugar refined as the sugar refined as the sugar standard sugar seements. Dominion Crystal Sugar.

A PRODUCT UNTOUCHED BY HUMAN HANDS

The Canadian housewife who has used this augar has found it to be all that sugar should be; and has accordingly delopted an attitude of each such as the control of the con

You should know more about this splendid Canadian product. You should read the whole interesting story as told in our beautifully illustrated book, "Sugar from Beet to Bowl." Those who can come, are welcome at my of con-

three refineries, welcome to see the whole pro-cess. For those who cannot come, we recom-mend a reading of our book, and the following of the sugar through its pages, from the time the juice as currented from the boots, until the the juice as currented from the boots, until the process of the contract of the post of the post. All through the process—the direct of the post of the extraction, the day purpose and all tering, the boiling, the day purpose and all tering, the packing—all-strong this intrince system, not a single human hand is permitted to touch

DOMINION CRYSTAL SUGAR SUGAR

THE 20-POUND BAG IS A HANDY PACKAGE FOR THE AVERAGE

HOUSEHOLD Most grocers have Dominion Crystal Sugar the 20-pound beg as well as in the larger bags ad barrels.

Most grocers take pride in selling this superior and truly Canadian product. Ask your grocer for it.

RITCHIES

Spring Opening

See The Special Displays In Our Show Windows To-night

Don't Fail to Visit The 3rd Floor On Ope ning Days

Thursday and Following Days, at Ritchies

Fashion makes her initial how in this fied forimal present-the Spring spaces will be authentic styles. Much hilly is in gaidance in a the style notes to be featured on ig Days and these fashion features are the result of rers going direct to the Home of Fashion—New York. We confailly invite all ladies to be present at the Ritchel store on Thursday and following days and view this magni-ferent ascemblage of

HATS, SUITS, COATS, DRESSES, BLOUSES, SKIRTS, SILKS, DRESS, GOODS, GLOVES, HOSIERYS, Draperies, Rugs, Model Drapes, MEN'S CLOTHING ETC.

THE RITCHIE COMPANY

Are You a Bolshevik?

Castor oil, for instance, is so obnoxious that the bowels make frantic effort to get rid ofit. Other medicines, from senna to salts, provoke action by causing the bowels to try desperately to expel them first.

With such remedies there-fore the removal of bowel waste is secondary and wholly incidental. Hence, the result is not to cure con-stipation, but on the con-trary, to make it worse, more obstinate, harder to overcome.

On the other hand, Nujol is not a drug, does not act like any drug, acts mechanically, not medicinally; persuades Nature instead of forcing her.

Bolshevism is based upon violence, relies upon force, it is deal to right or reason.

To fars the bowels to move the state of the relief of the reason with the relief of the relief of

poisonous material.

Nujol is free from any deleterious after effects, forms
no bad habits, can be used
at any age, under any conditions, and overcomes constipation because it works
hand in hand with Nature—
with her laws, not against
them.

Self-poisoning due to con-stipation causes over 90% of human illness. Get a bottle of Nujol from your druggist today, and send coupon for free booklet— "Thirty Feet of Danger."

Warning Nujel is seld only brazing the Nujel Trade Mark. Insist on Nujel. You may suffer from substitutes.

Nujol Laboratories

Nujol Laboratorics, Steedard Oil Co. (New Jorsey) way, New York. Please send me free booklet "This Danger"—constipation and sate-a train-tion in adults.

BIRD & SON, LIMITED

Neponset Dealer — Belleville — The Smith Hardware Co.

Costs Less in the End

THE cost of a motor car is not its price alone. It's the price plus the running cost plus repairs divided by the miles of service.

And on this basis the Gray-Dort costs less in the end—less even than cars-lower priced. Year after year this fine light car does go farther on a set of tires or a gallon of gasoline—dees stay out of the repair shop.

You will enjoy owning a Gray-Dort—enjoy the comfort of its roomy, luxurious body; easy to control in traffic; quick to pick up, speedy on open stretches and powerful on hills; and you'll be proud of its real beauty.

The touring car is \$1245; the Gray-Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are false to coups and a sedan. All prices are f.o.b. Checkam and was embject to change without motion.

The Great Hot Spot Engine has made the Chalmers one of the few great cars of the world-

It has swung the attention from multi-cylinders, extra valves and the like to the subject of getting-the-very-last-bit-of-power-out-of-every-drop-of-gas.

bit-of-power-out-of-every-drop-of-gas. For gas has gone down and down in grade; the price has gone up and up; and cars have not performed as one they did, while the public began to any "they werent waking cars as well as they used to.".

The public was wrong I it was not be car. It was the four grade gas. The fact, at the same day of the cars, the was the four grade gas. The digital they are the same digital to the same digital to the same digital and the same digital to the same d

Among the first to observe this con-dition were the Chalmers engineers. They were the first to supply the answer. They designed a Hot Spot device and attached a new type of intake mani-fold now known as the famous Ram's-

By- means of the Hot Spot they cracked up, fine as powder, and heated the CHALMERS MOTOR CO. OF 6

ga after it left the carbureter. This put she gas in perfect shape for combustion. Now the task was to get this, for an powder," or as the engineers say 'dry gas' into the 'cylinders without letting it condense on the ahort 18-inch but hazardous journey, 'Gas is tricky. They succeeded in designing a braid saw type of cand or manifold—minus sew type of cand or manifold—minus for the contract of the property of the like—and this jho call the Run -berna.

Any man who drives a Hot Spoe Chalmers can tell you how wonderful these two devices work. They have made the Chalmers now a great automobile. This is what they accomplish:

forc.

Prevent raw gas from going past the pistons into all case and subsequent hibritation trouble.

Develop a smoother, softer kind of power.

Came a lower upker goot, through leas vibrail Spin more mileage out of every gallon.

Be Wise To-day

If FE Insurance is the one thing which above all others should be decided upon To-day.

During the recent epidemic numerous claims were paid by our Company amounting to so less than \$55,000 00 in addition to war losses and ordinary mortality.

Many of these claims were on the lives of young men and women who had been but a very short time members of the company.

There were many others who, delaying their applications for only a few days, were overtaken by the fatal pestilence and swept away, their relatives thus forfeiting the protection that was planned.

"If it is wrong don't do it; If it is right do it now."

Auto Strop Safety Razor

You're getting a June Style in a March Maxwell

THE MAXWELL car of today is so vastly improved in appearance that many persons believe we have produced a new model. That is not the case.

It is the same chassis, scarcely with a change, on which 300,000 Maxwells have been built.

But it is a better locking car. It is finer in finish; angular lines have been straightened out; fenders improved; bonnet simplified; cowl made flush with the top line of the body; seats thickened by three inches; carcassian dash installed; gas tank slung in the trear, etc.

There are twenty-four things done to make it more beautiful,

We made the Marwell simple to start with five years ago. Then we kept on making and making these cars all adike. We have now completed 300,000 of them.

There is logic in doing one thing and doing it ell. We have followed that logic, And results tell today.

Maxwells have always been noted for their reli-ability. Now they will become noted for their

And today we are in a position to give you a June style in a March. Maxwell, which a year ago seemed quite out of the question on account of the war.

Come and see the latest Maxwell.

Overcoming The World

The Story of Malcom Kirk

When the Old Uniform Comes off-Put on Fit-Reform

Order your Milk Supply with your Groceries

Got your milk supply in the logical worry-free way—from your grocer, He will sell you a week's—a month's —supply of Carnation Milk with

That's the modern way to get milk. You have fresh, rich milk—or cream—for any unexpected need.—You are never "caught without" milk.

Carnation Milk

MAKING THE BEST OF IT.

MARJOR THE DEST. OF IT.

The inst is an ideal world and file sharey. In a site drawback and instantions, "Stare is at its text and living it only a getting along as below may, overcoming and functioning where we can, and making the best of the climation with the contract of the climation where we can and making the best of the climation where we can and making the best of the climation where we can and making the best of the climation where we can and making the best of the climation where we can and making the best of the climation where we can and making the best of the climation where we can and making the best of the climation where the climation is a start of the climation of the public where the climation where subjective placks any that in a world like ours been certain and an extensive place of the control of the contr

spéssous hexery-orders, alas, survive the war in bitterness of sprit in the properties describe former the war some of conducted to their likely—order to the properties of the properties of the properties of the likely—order to the properties of the properties of the properties of the likely—order to the properties of the properties of the properties of the top the stock of charge and countercharge, and the stock of charge and countercharge, and the war could have been conducted to such fetter advantage. In the opinion of those limiting has a rule, never were actively counterfair to the counterfairly.

opinion of those limitight strategies to, as a rule, never were activety concerned in the actual lighting.

Of course, complaints such as these lose most of their force, from the knowledge that they are inspired by a sense of personal injury, and from the fact that such a colosal war in rather much of a progressive institution, totally unlike any settled system of business where the same confidious prevail year after year. War conditions change day by day and the best laid cheaklasions are more often upset than on by the activity and strategy of the enemy, organized and directed for that very puripose.

The strategy of the enemy, organized and directed for that very puripose. and stringly of the enemy, organized and directed for max very purpose. Then, too, it is just possible that among the armies of millions there may be men so far from perfect as to make instakes, while an occasional nor may yeen go wives; and when the solved armed thing is over many three be who didn't achieve their objectives and are going to solve their "fear-full reversions" before the largest audience possible at the psychological moment. However, as war is not an exact science, especially for civil. moment: However, as war is not an exact science, especially for civil, har solders, and as we are all more be less human and packing more or less of a good-sized bluff as to ability and efficiency, it is quite possible that fewer mixtakes were made than might have been expected. While the lurid fires of war criticism paint the horizon let us all re-

tire to our dugouts of good columns sense and wait until all the soreness and bate is out of the afflicted systems—then we can all buck up and "earry on" together in the making of a Greater Canada.

DANCED UPON A VOLCANO.

Pacifist blindness, accentuated by political perverseness and assisted by masted but powerful German influences, nearly weeked the peace and appoinces of the world and in the weakching of British military effective. sees, when all signs and outspoken warmings called for a strengthening of the forces on a land and see, oct thousands of lives, sartificed upon the

The strong and well financed pacifist movement in England prior to war which cast dust in the eyes of the Asquith Liberal Government, a celood in Canada by the leading Liberal organs and "statesmen," the warnings of the war cloud gathering in Germany menacing the ish Empire forcefully given by Lord Roberts and others were treated contempt and sarcastic derision. The Liberal Toronto Star, for inee, in its issue of March 8, 1913, ridiculed those far-sighted patriots amon, in its issue of March 8, 1913, ridiculed those far-sighted patriots reveases who urged instant preparation to meet the German war machine on nearing its greatest peak of perfection after forty years of prepar-ion. The Star christened the men who were fighting against this mad leifism. "Imperial Order of Fussers." A little more than a year later pressure imperal Order of Pussers." A little more than a year later the pacifists plad reason to be called fussers and had something to fus about when the thunders of German big guns began to reverberate even in England. Here is characteristic bit of the pacifist propaganda in Can-ada griot to the war endorsed so warmly by Liberal politicians, and com-batted vigorously by Sir Robert Borden and other Conservative states-batted vigorously by Sir Robert sources.

given to the war ecovered to variety by Luchera politicans, and other Conservative as dispersable by in Robert Borden and other Conservative as dispersable places, it appears to face to face with two great diagons. His farçone is looking affer one and the Ri. Hos. Look dislooking lifter the other.

One danger is the German recessor on the exat and the Conservative is the German recessor of the exat and the Conservative is the German recessor of the exat and the Conservative is the German recessor of the exat and the Ri. Hon. Loed are abstracted in Britain and falling in prices unless free trade be abandoned in Britain and taffing in prices unless free trade be abandoned in Britain and taffing in prices unless free trade be abandoned in Britain and taffing the prices unless free trade be abandoned in Britain and the Rome and the Ri. Hon. Loed are abstracted as discourable to the serious costs of the situation?

One written us on the impressive letter-head of "The Head Ref Britain," the other on that of "The imperial Neuf-Head Ref Britain," the other on that of "The imperial Neuf-Head Ref Britain State of the Imperial Order of The Physician Ref country with their circulars in the difference of the price of the Ref Britain State of the Ref Britain State

HELPS FOR INVESTORS

The gold and aliver mines of Northern Ontarjo layer paid to shareholders in dividends an less han \$105,000,000. Potenplan first produced gold in 1910, as that the career of the camp has first began. The first gold camps are within a day', therm yet any Ontario point. Selected mining stocks are in a position to return larger profits than any other class of securities.

In addition to our investment business we are is a position to undertake the management of mining properties. We have the necessary equipment and our Engineers are among the most capable in Northern Outstarb. We would be pleased to hear from any interests who have properties that they want to have developed.

We are in a position to assist investors in selecting securities which afford the greatest pos-shibilities for profits. We have an elaborate information bureau which is entirely at your service free of charge. Write as concerning investment opportunities. We will be pleased to advise you

We publish each week a market letter whichhas hope greatly appreciated by our readers, as it advises them authoritatively concerning current developments in connection with mining and other securities. We would be pleased to mail our market letter to you regularly on application. free of charge.

In connection with our intelligence service we have prepared a complete map of Porcupine in two colors, which also we will be glad to mail to you free of charge on application.

If you desire the benefit of our financial and mining experience, if you would like to receive our market letter each week, or if you would care to have a map of Porcupine for reference, fill in the accompanying coupon with name and address and mail anne to us.

Starvation Adds To Loyalist Woes In North Russia

WEIBRE WILLIAM TEIB EVENUE COME FRO

THE DAILY INTELLIGENCER, TUESDAY, MARCH IS, 1919.

To meet the regular expenses of administration, to pay war service gratuities to demobilized soldiers, to provide pensions for disabled soldiers and for the dependents of those who have lost their lives, as well as to carry out the program of public works which is being undertaken to relieve unemployment, it is estimated that the Dominion Government will require to raise this year a revenue of about

400 MILLION DOLLARS

Last year the Dominion Government revenue was 260 million dollars and was derived from the following sources:

Canadian Customs Tariff	116 millions
pecial War Tariff	45 millions
xcise Tax	26 millions
Business Profits Tax	21 millions
ncome Tax and other Sources	52 millions
Total	260 :II:

How is the shortage of 140 millions to be made up?

At the very moment when Canada is struggling with this problem the Western Grain Growers come forward with insistent demands for:

"An immediate and substantial all-round reduction of the customs tariff."

(2) Free trade with Great Britain inside of five years.
(3) Reciprocity now, and free trade later, with the United States.

(2) Reciprocity now, and free trade-tater, with the United States.

These demands are apparently made in the hope and belief that, if they are grained, those making them will be relieved of a large part of what they call the "Burden of Tazation" which the tail impose upon them. That expects in can only be realized if the relevance raised by means of the tail is substantially reduced. They may argue that under a lower defift the volume of goods imported will increase, and consequently there will be not declarge in the revenue. But must but they want the they removed entirely from implements, boths, commit, cil and other articles of which they are large consumes. If the revenue is to be maintained under such a reasuragement of the people must pay what the Guin Grovers will escape.

Passing to the next point, how would the Grain Grovers provide for the probable shortage of 140 million dallars this year? They ask the Dominion Government to impose the following taxes:—A direct tax on unimproved lands, increased taxation on personal incomes, increased inheritance taxes and increased taxation on corporations.

lands, increased toasion on personal incomes, increased inheritance taxes and increased toasion on corporations.

J Vescut had now pay's taxes to the Municipalities and, in some Provinces additional taxes to the Provincia Government. Income taxes are now paid by individuals to the Municipalities and also to the Duminion Government. When the provincial to the provincial of the Company of the Provinces, ranging in Ontario, for example, from ong to twenty per cent. Corporations are now taxed as persons by Municipal Governments, Provincial Governments and the Dominion Government, and also pay special taxes to every Province for the privilege of being corporations.

Covernment, and also pay special most to every resource per the province of nong corporations.

Let year the tainff collected sixty-over per cent. of the total Domainon Government Revenue. Does anyone believe that the forms of texation, advocated by the Grain Grovers cannot be sufficiently this year to obtain the revenue which would be lot by tainff reduction, and also the additional 140 million dollars required, without cripping industry, stifling business and throwing thousands of workers out of employment?

The United States has all the forms of bacation advocated by the Grain Growers, but still finds it necessary

will happen to the people who will be driven out of business through two to pay not only their own, what those of the Crain Growers are to escape almost all taxation, including the great increase caused by the 'we, what those of the Crain Growers. Will they try to grow gain? It is appre lakely that they will give to the United States to get work, as other Caraclaras went fifty wiles ago, and lave a population, chiefly farmers, ever growing reader.

Again we ask where is the extra revenue coming from?

Battle Figures

HE British are noted as great tea drinkers and are naturally good judges of tea.

So when we learn that over 70% of the tea used in Great Britain is Indian tea we can be sure that Indian tea is of the very best quality.

In Canada the preference for Indian tea has become just as strong, as evidenced by the success of Red Rose Tea which consists chiefly of ASSAMS—the richest and strongest of Indian teas.

Red Rose is always sold in sealed packages.

REDROSE TEA'is good tea

Your Safeguard in Buying Shoes

HEN you buy shoes, you take somebody's word for value, it is CONFIDENCE which leads you, in the end, to ley down your hard-sarned dollars for shoes. And you are right in buying where you feel the most confidence.

This confidence on the part of the buying public is the biggest asset which any dealer, or any manufacturer can have. The reputable, wetablished dealer has YOUR interests in mind when he buys his stock; the spanse facturer bears them in mind when he makes it.

Your safeguard in buying shoes is to see that your confidence is well piaced. Go to a dealer whose judgment you can trust. And see that the many facturer's trade mark is on the shoes you select. Thus you may buy with DOUBLE confidence.

Our booklet "How to Buy Shoes," will be sent, with our complimer any address in Canada upon request to our head office at Montreal.

AMES HOLDEN McCREADY

'If high rates of interest must still be paid on Canadian Government borrowings, ALL the people should have the opportunity to corn this interest' —SIR THOMAS WHITE. Mississe of Finance.

Why They Are Buying WAR-SAVINGS STAMPS

The housewife is economizing in comfortable ways and investing in Warsawings Stamps at \$4.02 each this month. In 1924, when these stamps are redeemed at \$5.00 each, every dollar will have greater purchasing power.

The business man is cutting off small and unnecessary expenditures and buying War-Savings Stamps. He knows his money is available any time he really needs it, with added interest. \$5 for \$4 in five years is an excellent return on money otherwise idie.

School children are buying Thrift Stamps at 25 cents each and are filling their Thrift Cards in order to acquire a War-Savings Stamp. They are helping their country and acquiring the habit of Thrift.

Men on the farms are buying W.S.S. be-cause the Government uses the money to finance export orders for the food raised on Canadian farms. This makes their market sure.

Men, women and children of all ages and conditions of life, are investing in W-S.S. because it is a convenient way to "build a bond". The security is a basolute and the interest is unusually high. Some day they will look back with great satisfaction to the day when they bought their first War-Savings Slamps.

Have You Bought Your Stamp Today?

SOME BOND COMPARISONS

SOME BOND COMPAISONS.

Depreciation in the values of Liberty bonds in the United States until they have much of their, popularity is causing uneasiness to those changed with foating the new Victory loan in that country. It is fearer that the fact that these bonds are below par, instead of above, will make many people charge about 1,000 per bonds. Torotto men who were active in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as a just in the Canadian Victory loan work point to the incident as just in the Canadian Victory loan work point to the victory loan work point to the incident as a just in the Canadian Victory loan work point to the victory loan work point t active in the Causalan Victory from work point to the incident as a justification for the great policy on this side., In the United States the voluntary workers who pressed the through as an emotional appear, are arrather than as an investment, got subscriptions from many who were some glied to put their bonds on the market for almost a copy price. Another factor was the burst red of interest, 4ft per cent., compared with 35 in Causalan. Tablety fonds are now quoted around 59 to 59; while Causalan free per cent. are 19; 10 59; 15, 465; 16, 100 to 19; 556.

Eddy's Matches Overseas

PUDDINGS & PIES

THERE are certain things "from home" which our soldiers demand. One of them is Matches. One of them is relationes.

Foreign matches may be all right in their slow burning, odorous way, but when a quick, sure light is wanted for pipe or cigarette, it's "me for, Eddy's."

Eddy's Matches

are being shipped to the Y.M.C.A. Overseas Headquarters at the rate of 300 ten-gross cases (432,000 boxes) per month

A match is a comfort and convenience which is so commonplace that we do not appreciate it—until we are deprived of it for while. For sixty-seven years the House of Eddy has been making matches for the Canadian public—more than 79,000,000 matches a day at the present time. And we are proud of the fact that Canadian soldiers overseas still request Eddy's Matches.

When you buy matches you may be assured of satisfaction by seeing that Eddy's name is on the box.

ti is with much Pleasure and pride that I announce the opening on Saturday, March 22nd, of a Betty Brown chocolate shop in Belleville. Pleasure because of the keen satisfaction, I derive from the knewledge that I am serving the public with pure and wholesome candy made under home-like conditions. Pride because I know that in all conditions. Pride because I know that in all conditions to the production of the price of the conditions of the price of the pric Canada there are no cleaner, more convenient, or better appointed shops than those of Betty Brown,

> Opening On Saturday, March 22 BETTY BROWN Chocolate Shop

Drop in, then, on opening day and look around. You'll not be importanted to buy. Unlike the pieuan whom Simo accosted, you are going to have the chance of sampling my 'warres' without being asked for navished in return. hing in return, except your will, and that I know I khall when bace you try my candy.

You'll find at the new shop all the favorites that you thought had become only a memory. Home, made, chewy taffy, genuise melasses candy, mints, nuts, luscoits fruit centres and Swias milk ludge, all taken from an old fashlood recipe book that had been a family treature for years.

Pound Boxes 60 cents

VANITY FAIR 3199

Local theorem of the Control SUTTING COUNTY SAVED-for the People of Canada

HYDRO power is generated by utilizing Hydro power distributed this year, replaced by the seminary of waterfalls. The amount of Hydro power distributed this year, replaced by steam-generated electricity, would require, 4500,000 toas of coal, valued at \$31,500,000. To heat this coal 12,500 cars would be needed. They would make 3,750 trains of 30 cars each extending over 6783 miles of track.

If the coal saved were distributed equally among the users of Hydro Power, each would receive 28½ tons.

Incidentally the Hydro-Electric Power Com-mission of Onjario helps conserve the coal supply and transportation facilities of the country.

and transportation facilities of the country.

It achief object is to supply electric current at low rates. To aid the users of the current in obtaining the most satisfactory illumination is another. The Commission recommends HYDRO Quality Lamps for home lighting. Definite brilliancy, saniform current consumption and length of useful life are assured because of tests constantly made is the laboratories of the Commission.

THOUGHT - - ACTION

The tapse of time between thought and action often mean magnitude of a man's duccess.

Failure is not due to the nature of the decision, providing this is hased on careful thought, but to procrastination, delay, constant put-ting off of decision.

We have from time to time informed our readers of certain im-portant developments on the Davidson property which have since lavorably affected the price of the stock.

A strike made soveral slays age of a rich see body on the 500-loot level of the Davidson warrants our advising immediate purchase, pending a detailed statement by the Davidson management dealing with exact size and value of the find.

We have information of such a nature, however, that we do not besitate advising immediate purchase of Davidson stock.

O March Sec.

MAKE YOUR PURCHASE OF DAVIDSON NOW!

The Ram's-horn-able assistant to the Hot Spot, which makes, Chalmers a great car

THERE has been so much favorable comment on the Hot Spot device of the Chalmers that often the Ram's horn of this great car is overlooked.

The Ramis-horn oit his great car is overtooked.
The Ramis-horn completes the magnificent work of
the Hot Spot, the main purpose of which is to fletcherize
or "track up" and hear the gas coming from the carburetor.
Having done its work the Hot Spot passes the 100%
conditioned gas on to the Ramis-horn. Now here is where
the conditioned gas on to the Ramis-horn.

conditioned gas on to the Raim Faioria. Now there is where an important job begins, an important job begins.

Gas is a peculiar thing. It "sticks in corners," "coldlects at any angle," goes back to its raw state unless it is handled quickly and scientifically.

levis at any angle," goes back to its run state unders it a handled quickly and scientifically,"

So the Ram's-horn, as one might gather from the lame, is without tharp corners, has easy beeds and emices the gas smoothly into each cylinder. The inside of it is not a rough casting. It is as smooth as glass.

Note the drawing above. See that the distance from the Hot Spot to each cylinder is the same, That is the prest secret of the Ram's-horn.

Most cars have a manifold that freeds gas into one cylinder, whatever is left over goes on into number two, the residue to number three and so on.

O'linder number drie susually "starved" or gets "raw gas."

We couldn't make the Maxwell any better; so we made it better looking

An artist never frames his master-So the new Maxwell, a com-pleted work, is now robed in new;

They do not make it run any better.

Mr. Whistler, the famous artist, were he here today and saw a new Maxwell pass on the street, would probably himself give it a second look.

probably himself give it a second look.

A filts touch here, the stringiptoning of a line there, the bringing of a finder a little closer to the wheel, a circassian walnut dash before you as you sit at the wheel, the strength lent by putting the gas tank in the rear, the multiplication of bounds vents, the adding of the contract of

It is in the sum of many little things that the full story is told.

The car was first checked off in squares, as a doctor sometimes marks off a man's chest and back to test every square inch of the lungs.

And there was an improvement le in nearly every square.

When the task was done it looked ; like a different Maxwell.

But it wasn't.

It was the same, sound, go-get-there

chassis built to stand the gaff of rougt and ready driving, built to endure, to "stay put," to stand all the erratic moods of the careless driver.

It was a five year drive to reach this present peak of Maxwell efficiency. But the engineers, and the manufacturing men lenew that building a chaesis without fundamental change in design year after year would ultimately tell in results. For every one knows that doing one thing results in doing it well.

So in five years 300,000 Maxwell / have come forth, all built on the original chassis plan—each new one better than the last.

There is no self-starting automobile in the world that has such a manufacturing record. Think what it means to a man who

He has not paid for a false He has not paid for manufacturing mistakes.

He has not paid for the changes of mind of another man, i

Today you get a better Maxwell than any of the 300,000, and a better looking Maxwell. It is a finished work, a completed task, a thing well done.

You run no risk-and when you cast your eyes on it you are tempted to feel that the price might easily be \$200

201 Dominion Express Bidg. - - - MONTRBAL

"Bankers Insist Upon Life Insurance"

Tour Annual Meeting on February 6th last, a very prominent Eansdian Banker addressed the policyholders, saying among other things;

As a banker I believe in Life Insurance,
All bankers do. They are ever anxious
that the lives and homes of their debtors
absald be covered by file insurance. In
fact bankers insist upon Ifis I pursurance,
Many of you here present are clients of
banks, and being posicy holders you realize
the value bankers place upon kil histourance
when you apply for credit."

Life Insurance is essential in modern business. It strengthem credit; it protects the endorser, it is a resource lishe to taxation, and is in itself an asset of staddly increasing value. In addition, it is a means of providing for the payment of succession dues or death duties. Write for literature explaining the many uses of business fanurance.

THE RELIGION OF SERVICE

set quite grouped the idea of what it is to be a Christian. And yet this was a master about who jesus spoke very often and very clearly and explicitly. Of course He hooked, at it from differen points of view, hor some of the great central thoughts of all His teaching was that a Christian—that is, a follower of Himself—was one in whose beart there had been from a neal and passion far van coule help but no forget himself is service, service that was not all prayer and worship by any means, but that directed intelligence of the catch, as ead and passion that would help him to forget himself is service, service that was not all prayer and worship by any means, but that directed lined specially to carriage for the children, helping the unfortunate, the sick, the inexpectation, the criting, the unfo. To put it is a placetes toma pour tought that was only the product of the contract of th as the dighast interests of our human life, to give ourselves up, as Ho did, to the tremendous task of making the world what, in God's thought, it ought to be.—Christian Guardian.

PROTECT THE MOTHER.

PROTECY THE MOTHER.

The question or without pulsaries in bring superceived very deary and cardiously in Canada, but this reform is aurely coming. Like other regular department of the control of the co give her children proper attention at the same time.

Canada's future citizens will be better citizens if they have a care and love and protection. Let us protect the mother!

NO SIX-HOUR DAY FOR BRAINS.

Labor, wrape up with itself as unfortunately are other classes to far too great an extent, thinks of capital as the octopus which sucks its blood, says the Financial Post. Labor thinks of management hardly at

blood, says the Financial Post. Labor thinks of imanagement hardy and jet emangement is the factor white—under proper conditions—gives life to both capital and labor. Management and cipital mily be cost, but where they are one, there expert is nit, in reality, tabor.

There are urplug a factoour day. Hency Ford is said to be grant-thinks are urplug a factoour day. Hency Ford is said to be grant-thinks are the factor of the factor of

six-hour day. An understanding of their constant study and work would be illuminating to the labor men. It would lead these to realize how un-easy lies the head that is the head of some big work.

COMPULSORY MILITARY SERVICE

CONFILISORY MILITARY SERVICE.

In discussing events at the Potts Conference in Paris, the Daily Chronicle of London, England, says:

"There is no doubt that Premier Lloyd George scored a "Very limportant point in gaining the ascent of his colleagues on the Council of me to the principle that conscription shall be absoluted in Georgiany. The first the principle of the Council of me to the principle of the Council of the Cou

WATCH Davidson Gold Mines

There is an element of risk in every commercial undertakin in initial stages of development a gold mine involves period in risk as any other industry.

As the property develops and proves up greater volumes morely to the element of risk is gradually clashacted. A di-gold mias of good value is the salest kind of investment in the The value of gold does not depreciate.

A speculative investment is one which has the security of an in-ment and yet one which has still to discount the value represented

Davidson Gold Mines is a speculative of first importance.

As a result of the segnational strike made a week ago at the 500-level of the Davidsol, we believe the property will become one of most important producers of Northern Ontario.

DO NOT FAIL TO INVEST IN DAVIDSON WITHOUT DELAY. WE RECOMMEND IT AS THE MOST ATTRACTIVE SECURITY ON THE MARKET AT PRESENT.

Letters To The Editor

The Most

Artistic Roof is the one that completely harmonizes with the design and finishing of

design and missing of the house. For this reason there is a steadily increasing demand for Brantford Asphalt

Slates for the modern style of homes. States for the modern style of homes.

Brantford Asphalt Slates have a surface of crushed slate embedded into our asphalt coating, the base of the roofing being felt saturated with asphalt. They are cut the size of shingles, and their beautiful soft colors of reddish brown and dark green give a roof a most arigist appearance. The colors are the natural shades of the slate as it was not a size of the quarter. Brantford Asphale Sud of the quarters. Brantford Asphale Sud of the quarters. Brantford —never require painting.

months; the later batche down to matter than be carry. To be more and will be hatched early

and the state of t

For Forty Years We Have Been Allies

Do you remember what farming was like in Canada forty years ago?

We remember very well what manufacturing was like, what there was of it.

The farmers were struggling on farms and getting low prices for their produce.

The few manufacturers were also struggling, for the most part unsuccessfully. For forty years we have worked together. Have we not both prospered?

We buy from you most of what you grow. You buy from us most of what we make. That has been and is the basis of our alliance.

The manufacturing establishments in Canada campley nearly 760,680 people. Their wage-roll is about \$750,060,600 a year. Moreover, they buy annually nearly \$7,200,080,600 worth of raw material, mostly in Canada. Around these factories are congregated a hundred other forms of business, these are your customers, and statistics show that this honce market is four times as valuable to you are your entire foreign market. Decrease its buying powers, and your asies issues and your prices drop, your entire foreign market. Decrease its buying powers, and your asies issues and your prices drop,

How A Minority Seek to Sever Our Alliance

W A Minority Seek to Sever

The Prairie Taring Growers are uring the Government to throw down the tariff wall between Canada and the United States because they want to save a little money to the same that the transfer of the same that the transfer of Canada, ask all the other farmers, who cantitude about 20 per cent. of the agricultural population of Canada, ask all the other farmers, who cantitude the remaining 80 per cent, to change the policy which they have supported for forty years.

Furthermore, to raise the Dominion Government remaining the per cent, the tarift, which collected last year about 60 per cent. of that review, an increase of Later of the control of the compensation of the control of

We think this appeal will fail. First, because it seems to be founded on the assumption that the farmers of Canada want to also out of paying any increased taxes that may be needed for soldiers' pensions, gratitities and

FAMILIATION
Tree-tablishment. We have found in all our experience that the farmers of Canada are not this class of men. Second, because the airgument is, ansound. It requires little reflection to see that if our market is thrown open and flooded, many of our manufacturers, caught in the angle of the re-adjust themselves from war to poace conditions of the condition of the condi

consist cheely of largest, have to pay all the taxes?

The Grain Growers do not represent the entire population of the Prairie Provinces. They do not represent the brainess population; they do not by any measurement all the farmers. The Prairie Grain Growers' Association are dominated by a group of free trades whose one idea seems to be to get free trades whose one idea seems to be to get free trades all over the world. Unfortunately for their theories, just at the present time all the rest of the world seems desirous of getting protections.

Tariff Policy of Other Nations

GREAT BRITAIN is shutting out the goods of other countries (except the Dominions). FRANCE and ITALY are shutting out the goods of other countries by import

rathicitions.

THE DEMOCRATIC PARTY in the United States, which advecates low fariffs, seems to be, going out of powers and the Refullients, which advecates low fariffs, have now's majority in both Senate and Congress.

Do you think that this means that the United States' tariff is going up or down?

SOUTH AFRICA is increasing its tariff. Australia, New Zealand, Newfoundland, Japan, Brazil and Portugal are all jealously maintaining their tariffs. Why is this wave of protection sweeping over the world? In a word, because the various countries are try-ing to produce all they need at home, in order to provide the control of the produce of the control of the solid produce and the produce of the solid produce and the produce of the solid produce of the solid produce of the solid produce of the solid produce the solid produce of the solid produce of solid produce of solid produce of solid produce of solid produce solid produce solid produce solid produce solid produce solid produce solid solid produce solid solid produce solid solid produce solid so

Why then is this Western minority of the farmers of Canada determined to go in the exactly opposite direction?

In opposing the demands of the Grain Growers, we do not in any sense intend, as they sometimes say, to show hos-nility for sheeps. They are our customers. Is not our prosperity affected by theirs? Beyond all this, if the farmers do not prosper, feether we not the country can respect. "Agriculture and incutry are the basis of the country starters are the sain of the country starters are the sain of the country starters are the sain of the country as the country as the sain of the country as the country as the country as the sain of the country as the c

But we free that these demands of use arisin coopers aim a supplied by the first forming community.

What justifies the Grain Growers in demanding that their personal grievances be cured at the expense of the rest of the country? Are they in a desperate position? Have they been losing heavily? Are they suffering from too much adversity or too much success? Are they in any danger comparable to the one great danger in Canada now?—

THE DANGER OF UNEMPLOYMENT

the danger which may place thousands in need of shelter, food and clothing?

Most Canadians feel strongly that until this danger jeavoided, and the country safely restored to a peace basis, the nation should not be disturbed by any tariff controversy at all.

When this danger is passed, and the country knows where is stands, and what other countries of the world are within the country throws where is stands, and what other countries of the world are within the country throws where is stands and with other countries of the world are within the country throws where it is stands, and what other countries of the world are within the country throws the countries of the world are within the country of the categories of the categ

You're getting a June Styletin a March Maxwell

HE MAXWELL car of today is so vastly improved in appearance that many persons believe we have produced a new model. That is not the case.

That is not the case. It is the same chassis, scarcely with a charge, on which 300,000 Maxwells have been built. But it is a better looking car. It is finer in finish; angular lines have been straightened out; fenders improved; bonnet simplified; cowl made flush with the top line of the body; seats thick-ened by three inches; circussian dash installed; gas tank slung in the rear, etc.

There are twenty-four things done to make it.

There are twenty-four things done to make it more beautiful.

We made the Maxwell simple to start with five years ago. Then we kept on making and making these cars all alike. We have now com-pleted 300,000 of them.

There is logic in doing one thing and doing it well. We have followed that logic. And results tell today.

Maxwells have always been noted for their reliability. Now they will become noted for their beauty.

And today we are in a position to give you a June style in a March Maxwell, which a year ago seemed quite out of the question on account of the war.

Come and see the latest Maxwell.

A speculative investment is one which has the security of an in-vasiment and yet one which has still to discount the value represented in the property.

Davidson Gold Mines is a speculative of first importance.

As a result of the sensational strike main a week ago at the 500 foot level of the Davidson, we believe the property will become one of the most important producers of Northern Ontario.

DO NOT FAIL TO INVEST IN DAVIDSON WITHOUT DELAY. WE RECOMMEND IT AS THE MOST ATTRACTIVE SECURITY ON THE MARKET AT PRESENT.

C. P. R. Men Visit Old Quebec

HOW CANADIAN WOMEN discovered their own truly Canadian Sugar

A light, fluffy cake—it depends partly upon the sufar you use in it. Brown sufar makes a moist cake, powdered sufar a dry cake, franulated sufar a cake, of the finest texture, Dominion Crystal Granulated the "just right" cake.

Use this finest of sugare—this "truly Canadian" um not only for the cake itself, but for the icing too.

For the past I/ years Canada has been producing sugar refined from beets. Thousands of Canadian, women have used, this mayer, but many of them without realizing it their grooms for "sugar," designating no brand, and they took whatever was given to them.

Then came the war—and the submarines sank so much raw cane sugar on its way from Cuba and the West Indies that Canadian refineries who had depended on came were without adoquate supplies.

acequate supplies.

Still the Canadian housewife had sugar for her, table and in her kitchen—sugar of a superior quality. It science strange—and she interest of the sugar was coming from. She sugar restriction of the sugar was coming from. She sugar reflaction from canadian sugar beets—and sugar reflaction of the sugar reflaction of the sugar reflaction.

Dominion Crastal Sugar.

A PRODUCT UNTOUCHED BY HUMAN HANDS

The Canadian housewife who has used this augar has found it to be all that sugar should be and has accordingly adopted an attitude of comme friendliness: toward it, and pride in its comme friendliness: toward it, and pride in its left a matter of pride that we have the should be all the state of the sta

sugar from our own Canadian grown beets.
You should know more about this splendid
Canadian product. You should read the whole
interesting story as told in our beautifully
illustrated book, "Sugar from Beet to Bowl,"

three refineries, velcome to see, the whole proceas. For those who cannot come, we recommend a reading of our book, and we recommend a reading of our book, and the
edge of the sugar through its pages, from the time
of the sugar through its pages, from the time
of the pute of the page as a refined white crystal.
All through this process—the alieng of the beets
that the packing—all through this through this
tering, the boiling, the draw the recoiling and filtering, the boiling, the draw the recoiling and
the packing—all through this through this
not a single human hand is permitted to touch
not a single human hand is permitted to touch

Frail, Sickly Children Improve Rapidly on Vinol

The reason we so strongly recommend of rail, sickly children is because it is a non-scret rancely which contains Beef and God Liver Peptones, Iron and Manganese Peptonates and Glycorphiosphates — but no oil — the very elements needed to build them up. It is delicious to the taste, and children love it.

Lowest Cost Per Mile

"I HAVE ridden my C.C.M. bicycle pretty regularly for spe-teen or seventeen years," writes an enthusiast, "and it is still a good machine."

What was the cost per mile of that splendid service? Certainly

far and away less than that of a cheap, inferior bicycle. The few dollars you might save on an ordinary wheel are likely to be lest over and over agains in the aborter life and poorer service of such a machine. Make certain of a lowest cost per mile with

THE WILLIAM RENNIE COMPANY

Be Wise To-day "Be wise to day, to morrow never yet. On any human being rose or set." If E Immance is the one thing which above all others abould be decided upon Io-day. During the recent epidemic numerous claims were paid by our Company amounting to no less than \$65,000 00 in addition, to war losses and ordinary mortality. Many of these claims were on the lives of young men and women who had been but a very short time members of the company. There were many others who, delayin, their applications for only a few day; were overtaken by the fatal pestilence an sweep away, their relatives thus, forfeitin the protection that was planned.

Is one instance two young men from the sense coality shade application. One was immediately assumed, pamed and a policy was immed; the could deferred the medical examination for "a few lays." Death overtook both.

The family of the livet was paid the amount of the claim: but the dependents of the around suffer-ed from the part-it-of habit of the applicant.

"If it is wrong don't, do it; If it is right do it now." .

Railways Losing \$1,250,000 a Day

The Ultimate in Value

Motorists who come to the Gray Dort after having driven other cars, find in the end—whether they previously paid more or less— —that the Gray Dort offers the highest value.

This is the direct result of the basic policy of our business—to build a fine light car, completely satisfying, sturdy, economical. That we are able to sell such a car at a low price is due entirely to the unequalited efficiency of our factory.

Undoubtedly, you too will come some In the U.L.-

GRAY DORT MOTORS, Limited

BARRED

In recent years, it has been demonstrated to the world that in most lines of minufacture the Canadian product is equal to and in many, superior to foreign-made goods

In the manufacture of candy and chocolate, Canada is at the top. The Pure Food Laws guarantee a wholesome product, while skill in manufacture has produced a quality and deliciousness unequalled in any country.

universal transportation and the which the has few months a tremendous demand for Canadian candy and chocolate has grown up in Bagland and Europe. The large supplies sent to our men overseas during the war gave to many Europeabs their first opportunity of appreciating the high qualities which the Canadian product possesses. European merchants and candy lovers are now clamoring for Canadian candies.

There may be some Canadians who do not realize that the most wholesome and delicious candy and chocolate are made here at home—but this is true.

You can eat Canadian-made candy and chocolate with assurance of their high quality and wholesomeness.

In Stay Abroad

Newspaper Mais From Peace Con-ference Says He is in Right Place.

be indigestion. rives in the cylinders in too large globules.

The Hot Spot in the Chalmers prevents this. For it "eracles up" and heats the gas. As soon as itstrikes the Hot Spotgas is "pel-verized" into a most minute "vapor powder."

Engineers call this "dry gas."

Then the gas is passed-quickly-through the Ram's-horn which equally distributes the gas among six cylinders and makes it arrive at each cylinder, at exactly the same time and travel the same distance.

Which means not only more power from less gas, but hitting on all six all the time, amazing case in starting on a cold day, less friction, less wibration, and hence a cool running engine on a red hot day.

To min a demonstration in a Chalmers nowadays before purchasing a car—no matter what price you pay—is to miss an experience worth making a day's march to find.

NAME ...

ADDRESS

"If high rates of interest must still be paid on Canadian Government borowings, ALL the people should have the opportunity to earn this laterest". —SIR THOMAS WHITE, Michier of Finance.

Why They Are Buying WAR-SAVINGS STAMPS

The housewife is economizing in comfortable ways and investing in War-Savings Stamps at \$4.02 each this month. In 1924, when these stamps are redeemed at \$5.00 each, every dollar will have greater purchasing power.

The business man is cutting off small and unnecessary expenditures and buying War-Sawing Stamps. He knowshis money is available any time he really needs it, with added interest. \$5 for \$4 in five years is an excellent return on money otherwise idle.

School children are buying Thrist Stamps at 25 cents each and are filling their Thrist Cards in order to acquire a War-Savings Stamp. They are helping their country and acquiring the habit of Thrist.

Men on the farms are buying W-S.S. because the Government uses the money to finance export orders for the food raised on Canadian farms. This makes their market sure.

Men, women and children of all ages and conditions of life, are investing in W.S.S. became it is a convenient way to "buld a bond". The security is absolute and the interest is unusually high. Some day they will look back with great satisfaction to the day when they bought their first Wac-Swing Stamps.

Have You Bought Your Stamp Today?

New in Beauty, Old in Virtues.

This Maxwell Has Stirred Canada

MEN buying cars today are giving this present day Maxwell searching consideration. For where, the moment, can you get a car, like a Maxwell, the chassis of which has had a 300,000 manufacturing run and the beauty of which has been improved to an astonishing degree?

They're weighing the soundness of the 300,000-all-like-for-five-years logic and they translate that into slability supreme.

They know in their own business what changes in dan, in program, mean—how serious the losses in good will and profits—the dissatisfied customers.

Many of them have been "burned" by "new models" in days gone by, and have joined the "never again" club.

So this present day Maxwell has a deep appeal to em; and thousands since Jamuary 1 have reached for eir check books as soon as they laid eyes on this new

Perhaps it is unfair to say "new" because the chassis five years old in design. When we say "new" we can its vastly improved appearance.

There are twenty-four things done to the Maxwell to imake it better looking. Sharp angles have been removed; these straightened; certain corners eliminated; bonnet verte increased in number; three more coats of paint verte increased in number; three more coats of paint added; fenders lowered; each thickness three inches; a circussian dash installed; gas tank put in the rear; etc.

See the latest Maxwell, and you'll want one, too.

S. railways from con-ference of the Congress of the Co h the new time arrangement. To prevent endless confu al authorities saw fit to pass local ordinances requesting opform to the new time standard.

Railways Forced the Issue

Raturary Faced the Issue.

The action of the Canadian Partiament in defeating the Daylight plantage and the matter right up to the railways and the mustice, but Issuepcitive of the merits of defeating the state of the control of th

"AUTOMOPERAL STATES COME TO THE TOTAL THE TOTAL STATES CAME OF THE TOTA

to adopt Daylight Saving time as a business necessity, for subscrib whether in city, town or country, would not tolerate news twenty-fou a fate. Other lines of business were similarly affected.

Farmers Spoke First.

The Government rejected Daylight Saving because the farquers die of want it and said to in pleasy of time for the members to realize this control of the control of the control of the control of the control opportunity were in sufficiently enthulated in must reduce continued in fig. and the parliamentary representatives of mixed constituencies size, for the control of the control of the control of the favorer to the situation up to adout as one where the objections of the favorer would be emboused latter on the halton if necessary, while the city on more youters would not that the matter enricologycough to realize a votation of more youters would not that the matter according tomorphism or treating a votation.

waveers would not take the matter seriously, enough to retain a votor seasoned deep smough to last until next poling day. "50 Parliament buried Daylight Saving APPARENTLY, after thirt (d. pight) colored and mostly innience obtuny's speeches and one husely odd votes against to fifty for a sunterer change in time.

Then came the resurrection and the upsetting of the rasker contain-ning the remains of the Daylight Saving measure, releasing flive corpus their gailedt new vigor creys moment following the decision of the rail-rage to go it also on "summer-time," if necessary, and the resolve of intelligibilities that the railways would have company on the clock opening.
